

Tapered Wheel Bearings

L1045SB

Million Miles Easy!

(With proper adjustments and correct, contaminant free lube)

**Clean, high quality
steel + precision
manufacturing &
finishing delivers high
performance and
durability everytime!**

1. Manufactured in TS16949 plant, which is an advanced certification of ISO9000.
2. Superior high carbon chromium steel alloy.
3. Precise processes for microstructure control to reduce impurities AND provide the cleanest steel possible.
4. Protective atmospheric heat treatment equipment to insure dimensional stability and micro hardness at the highest operating temperatures.
5. 21st century finishing technology with special attention to critical convex areas to eliminate premature roller/ race fatigue.
6. Magnetic powder damage protection provides final test for imperfections prior to final assembly.
7. Meets/exceeds hardness specifications; Rockwell C Scale for hard parts and B Scale for cages.
8. Greatly exceeds requirements for life cycle, vibration, static load and dynamic load testing.
9. One of the longest aftermarket warranties, 2 years unlimited mileage.

**OTR Wheel Bearings are the SMART choice
because there's NO TIME FOR DOWNTIME.**
