

# Tubeless Disc Wheels

P/N: L1046SB

## True. Tested. Tough.

When traveling rough roads or hauling heavy loads, your tubeless disc wheels must handle the stress. If not, your tires pay the price and/or costly breakdowns occur. OTR Tubeless Disc Wheels provide the true-running strength you need for commercial vehicles. Here's how:

All tests verified by two independent testing labs in the US.

Meets SAE J267 recommended practices for fatigue testing and exceeds test specifications for cornering fatigue.

Tight runout control standards for better ride & increased tire mileage. Complies with SAE J2133 for Radial Runout Low Point Marking.

Manufactured in ISO9001 or TS16949 plants

Powder coated for superior protection vs. painting.

21st Century Computer Aided Design (CAD) for design & testing delivers performance and strength for tough highway conditions.

Exceeds DOT requirements & stamped per DOT standard. Batch stamped for traceability for Quality Control purpose.

Stringent quality standards and manufacturing processes insure OTR Disc Wheels deliver the longest life in the toughest conditions. So trust OTR to run true and tough.

OTR Tubeless Disc Wheels **are the SMART choice because there's NO TIME FOR DOWNTIME.**
